

## Team Focus

1. **With your teaching partner** select a child to who is not fully participating in the curriculum.
2. **Then, by yourself** identify and write down your beliefs about the following items in the middle column.
3. **With your partner** discuss the information you individually identified and then come to a consensus about strategies the team could implement collaboratively to facilitate the child's full participation.

	<b>By yourself</b>	<b>Consensus</b>
<b>The Child's strengths and limitations</b>		
<b>His/her barriers to participation</b>		
<b>Other relevant information</b>		
<b>What have you done to support him/her? What worked?</b>		
<b>How can you partner to be more successful?</b>
